

Mistakes

If approached in the right way mistakes can be a learning experience.
Penicilin, Post-It notes and X-Rays were all invented by mistake.

What are some instances where you have learned from a mistake?

What are some good ways to stop mistakes happening again?

What should you do if you make a mistake?

Apprentices and supervisors from the automotive industry shared their ideas after watching this video:

"I speak to the individual privately."

"Understand mistakes happen."

"Mistakes shouldn't be a life sentence. Learn and move on."

"I can see the need to explain why and be okay that they made the mistake as it is a learning curve."
