

Misunderstanding

People new to a workshop or the workforce may not know the way things are done in your workshop, the ground rules.

What are some of the ground rules here?

What do you do if you have run out of work?
Why is that important?

Who do you go to if you are unsure what to do next?

Apprentices and supervisors from the automotive industry shared their ideas after watching this video:

"Ensure the apprentice has a clear understanding of what is required and what to do once the job has been completed."

"I will ask more experienced staff for ideas of how to be more efficient."

"If all the work is done we can all clean up."
